LTI
Let's Solve

LTI is looking for tomorrow's technology leaders. Work with the best and be part of the next.

At LTI, we develop and deliver pioneering digital technology solutions to help more than 400 clients succeed in a converging world. We solve for society by thinking big and thinking global. We are always learning, never standing still, and constantly using new ways of working.

We believe in a future that is dynamic, efficient, and productive, where everything possible is connected. Want to be part of that future?

Come join us.

DTAP is an exclusive, two-year rotational program focused on developing talented individuals with passion and promise in digital technologies. Digital Technology Associates will grow skills in critical domains to serve our customers and internal initiatives, as well as become better prepared for what's next in a rapidly changing world.

Get practical experience across industries as you apply, sharpen, and expand your abilities, gain mentorship from all levels of the organization and form lasting relationships in a community that's committed to helping everyone succeed.

DTAP Features

Two-year development program with a technical learning plan focusing on a primary discipline, plus supplemental training in several other disciplines.

Offering rotational, cross-skill placements for a variety of professional experiences, including Full-Stack development, Cloud, Data, Digital, and Product assignments.

Provides on-the-job training through projects with business impact across one or more industry verticals, such as Banking, Insurance, Life Sciences, Manufacturing, and Media & Entertainment, Retail, Technology, Utilities.

Be a part of a strong peer and cohort community, receive supportive mentorship and exposure to leaders.

Get a chance to work at any of our LTI Delivery Centers or client offices across the US.

Candidate Requirements

You will have graduated within the last 12 months with an undergraduate STEM degree, business degree with a technical minor, graduate degree with a technology focus, or completion of an accredited software development program.

You should be flexible to learn/work across different technologies, domains, locations.

You should demonstrate a technical curiosity, leadership, self-motivation to learn, well-rounded extra-curricular experiences, and readiness to accomplish tasks in a challenging environment.

You will have excellent communication, interpersonal, analytical, and problem-solving skills.

You will have a minimum cumulative GPA of 3.0 and unrestricted work authorization in the US.

What will you do?

▸ **You will deliver** customer solutions in a variety of roles, from concept to production, including Agile Coach, Business Analyst, Quality and Software Engineer and Product and Project Manager.

▸ **You will develop** technical and soft skills as you learn to understand functional and nonfunctional customer requirements to design, develop, configure, and maintain solutions.

▸ **You will ensure** solutions are produced to plan as you develop test cases, perform testing and bug fixing, and follow quality assurance processes, standards, and service-level agreements.

▸ **You will gain** and hone teamwork skills by integrating various components into a fully functional solution and releasing it to customers, per change management best practices.

▸ **You will leverage** LTI tools (Canvas, Mosaic, etc.), frameworks, processes, and IP to optimize solutions and increase customer value.

▸ **You will support** grassroots innovation by proactively bringing ideas to LTI's iSuggest framework.

What will DTAP do for you?

▸ **We will teach** and expose you to modern engineering practices and agile ways of working.

▸ **The program will** surround you with a strong peer and cohort community to build a sense of organizational belonging, supporting technical learning and your professional development.

▸ **The team will** provide you with active coaching from an assigned mentor and interaction with leaders from all levels of the organization.

▸ **We will equip** you with knowledge of cutting-edge technology and cross-industry best practices.

▸ **You will learn to** foster relationships with internal and external stakeholders (customers, management, project and support teams, vendors, etc.), creating opportunities for full employment and career development.

Why LTI?

- We have a unique heritage as a subsidiary of Larsen & Toubro Limited, a global conglomerate with **80+ years of experience** in businesses from heavy engineering to digital technologies.

Corporate Social Responsibility & Inclusivity Programs

▶ We advance the **UN's Sustainable Development Goals**, emphasizing Education, Empowerment, and Environment.

▶ We **collaborate with more than 700 NGO** partners to deliver technology-enabled learning solutions, focusing on women and people with special abilities.

▶ **We empower diverse communities with access to technology** and capital, improving youth employability and offering employee volunteer programs for STEM career mentorship.

▶ We support women pursuing STEM careers through **female-focused Hackathon programs** and "Women for Women" networks for professional and personal development.

▶ We provide our employees in the US Armed Forces with **military service leave pay.**

▶ **We partner with the Arbor Day Foundation** and others for tree plantation initiatives to restore the green cover.

As an LTI Digital Technology Associate, you will have the opportunity to work with domain clusters that impact your life every day and in countless ways. Lots of internships offer the chance to get hands-on, real-world experience; we want our Associates to get their hands dirty – designing, developing, and doing exciting and challenging work – so they're prepared to face the real world. At LTI, you will not only work with the boldest, brightest and best in the business, you'll become that. We're peerless, and we think you can be too. These are our key beliefs: Go the Extra Mile, Be Agile, Push Frontiers of Innovation, Keep Learning, and Solve for Society. If that sounds like you, apply at www.lntinfotech.com/careers/.

Make a Real Impact, Change the Converging World, and Become One of Tomorrow's Technology Leaders.
