

Case Study

ERP Cloudification - Sales Tracking and Supply Management for Leading Medical Devices Company

Client

The client is a leading medical devices company that develops, manufactures, and distributes continuous glucose monitoring systems devices.

Challenges

Business continuity post-acquisition

The client recently acquired a German subsidiary, with no legacy system. They needed to define consistent business and IT processes, to seamlessly fit this new entity.

Limited time available for Go-Live

The ERP had to be made available within three months as per business requirements.

Ensure scalability and smooth upgrades in future

Reduce future maintenance costs and give an easily scalable product.

LTIMindtree Solution

LTIMindtree proposed the client to implement Oracle Fusion Cloud to define consistent processes at an organization level.

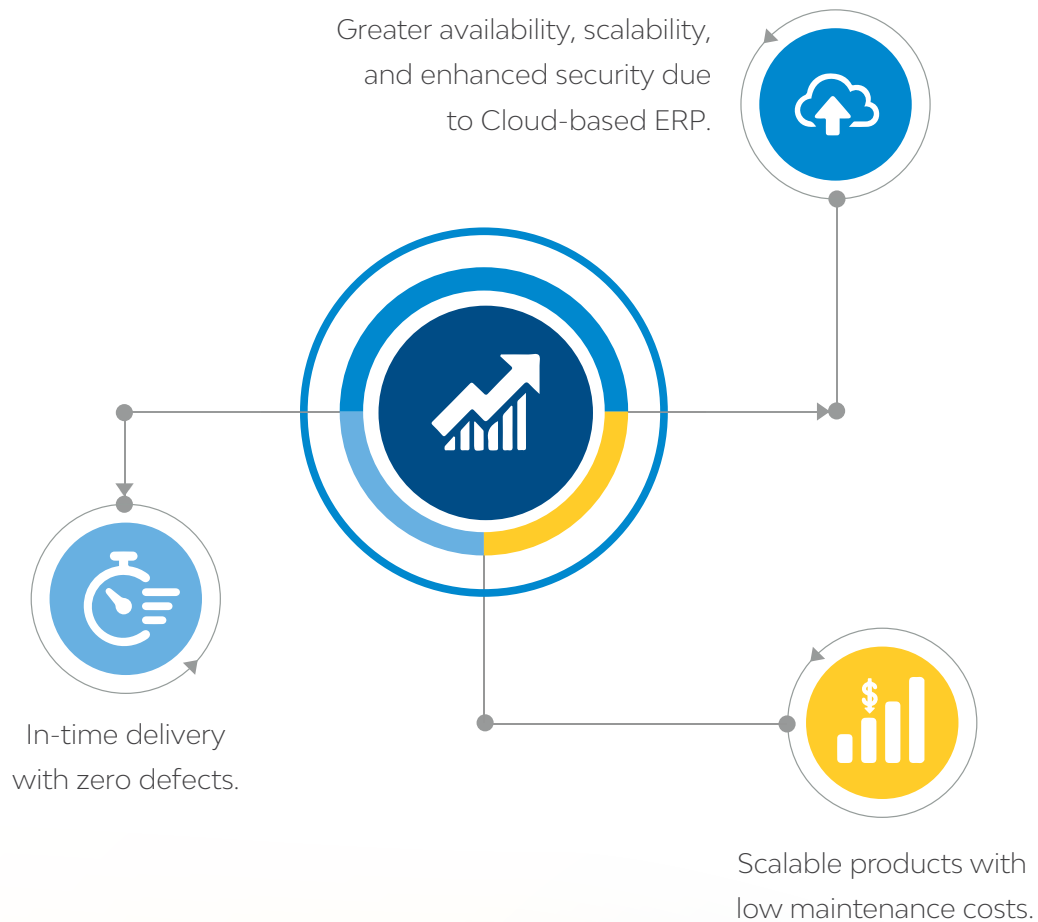

The client was involved from the development stage itself, enabling smooth movement to testing and production environment within designated timelines.

Agile and DevOps-based approach for timely delivery.

- LTIMindtree implemented Oracle Fusion Cloud with no customizations, following the Oracle best practices. This ensured
- Faster implementation with minimal requirement of technical manpower
 - Smoother system upgrade in future

Business Benefits

LTIMindtree is a global technology consulting and digital solutions company that enables enterprises across industries to reimagine business models, accelerate innovation, and maximize growth by harnessing digital technologies. As a digital transformation partner to more than 700 clients, LTIMindtree brings extensive domain and technology expertise to help drive superior competitive differentiation, customer experiences, and business outcomes in a converging world.
