SAP boosts Digital Transformation at LTI with SAP S/4HANA

Mumbai, India — April XX, 2018- [SAP SE](#) (NYSE: SAP) announced successful implementation of SAP S/4HANA Business suite at Larsen & Toubro Infotech (LTI). The implementation was completed in five months.

LTI is undertaking several initiatives as part of its digital transformation journey. To enhance its global operational excellence, the company needed a robust platform to enable innovation and improve agility. LTI selected SAP S/4HANA on Cloud as its platform.

“At LTI, we believe the change begins within. We have helped several global companies with their SAP S/4HANA programs and found it to be the right platform for our own digital transformation”, said **Aftab Ullah, COO, LTI**. “To amplify business outcomes, we deployed LTI’s S/4HANA smart analyzer and Mosaic platform that many of our clients have also leveraged.” he added.

“Digital is opening up an infinite world of new possibilities for companies to reimagine their business models, the way they work, and how they compete,” said **Deb Deep Sengupta, President & Managing Director, SAP Indian Subcontinent**. “With SAP as the digital core, LTI will be powered by live information from across its operations, to help increase productivity, improve collaboration, and drive innovation.”

“In the current digital era, technology implementation as well as business process change is driven by greater agility, sharper insights and more responsive business models, which is delivered by next generation platforms like SAP S/4HANA,” said **Kamolika Peres, Vice President and Head - Strategic Customer Program, SAP Indian Subcontinent**. “Our partnership with LTI is to optimize processes & enhance business excellence throughout the organization and for its customers. This is an extension of our mutual objective of enabling customers to unlock their digital potential.”

LTI is also a global partner of SAP and together, the two companies are supporting digital journeys of their mutual clients.
