Case Study

Leading Insurance Provider Achieves Enhanced Premium Pricing Model through Improved Risk Profiling of Customers with LTI's Mosaic Decisions for Leading Insurance Provider

A Larsen & Toubro
Group Company

Client

The client is one of the world's largest writers of commercial property casualty insurance and personal insurance. It offers insurance through three segments - personal insurance, business insurance, and bond & specialty insurance.

Challenge

- The client wanted to re-evaluate its workforce management, risk management and claims response processes.
- It also wanted to understand the risks associated with policies, its target customers and their proximity to hazards, to ensure timely rollout of the right set of products and services.

Solution

- GIS-based Catastrophe Workforce Planning and Resource Management Solution.
 - Visualization of certified location / sub-location data with ESRI / other tools
 - Integration of geo-spatial data with various systems
- Dynamic insights into catastrophe impacts, with event path plotted using customized ArcGIS.
- Insightful and efficient risk control, by linking the locations within RAR, to drive analytic insight.
- Standardized location information
 - Unique Location Identifier created and utilized throughout the Business Insurance, as well as for Risk Control, Claims, and Corporate Catastrophe Management.

Business Benefits Delivered

- **90%** Accuracy in Decision-making
- **60%** Effort Reduction
- **40%** Cost Reduction
