<p>Transforming Experiences</p>		<p>Next-Generation Application Management</p>
<p>Transform the way your customers & employees engage with you, and one-up the experience game.</p>		<p>Gain accelerated outcomes, with automation and innovation at your fingertips.</p>

Solutions

Oracle Adaptive Intelligent Apps for Semiconductor Manufacturing

Leverage Machine Learning and AI powered data-driven approach to increase yields and enhance production efficiency.

Digital Supply Chain Management

Gain extensive visibility into your supply chain operations, and transform the way they are managed.

Accounts Payable (AP) Automation

Minimize the effort and error by automating complex business processes, smoothly and efficiently.

Product Bundling and Marketplace Enablement for Technology Distributors

Enable operational efficiency through a comprehensive web app, built for distributors' product managers and resellers.

Product Returns (RMA) Virtual Assistant for Technology Distributors & OEMs

Enable a cognitive product returns process, ensuring improved overall response time and saving costs.

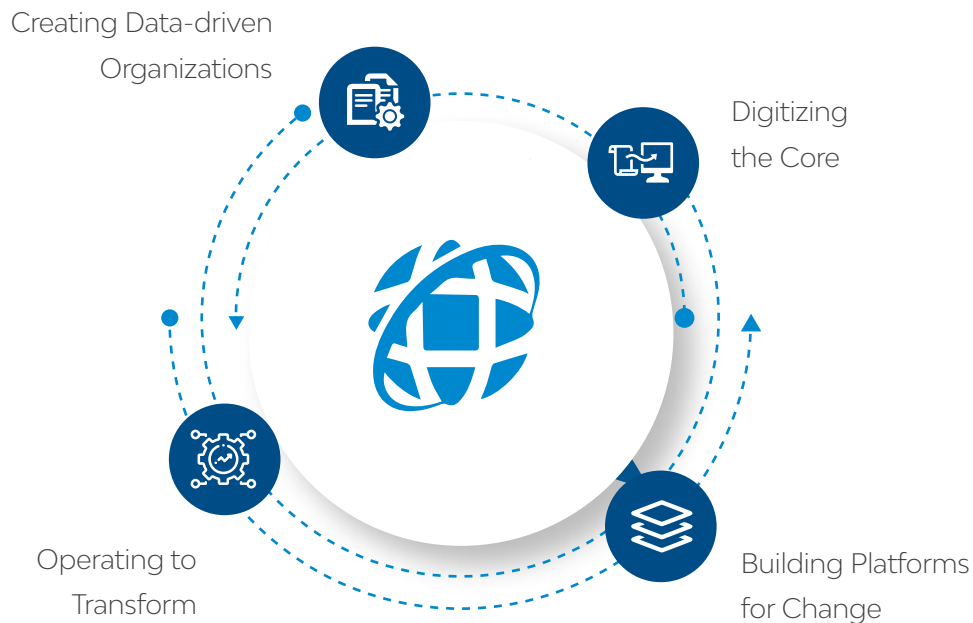

Digital Customer Experience (DiCE)

Gauge user behaviors and feelings accurately, for improved customer interactions and engagement.

BigArch™ for Data Archival

Archive your business-critical data the modern way.
