

Case Study

Oracle Access Manager SSO Solution
Deployment for Enterprise ERP

Client

The client is a Fortune 50 Oil and Gas Major

Challenges

The client faced following challenges

- To ensure minimal intervention to users and to standardize UAM processes
- Geographically distributed users leading to multilingual support for UAM and IAM
- To rollout simultaneously across four geographies and multiple BUs

LTIMindtree Solution

- Current state assessment of the ERP Access Landscape, documentation of key access management requirements, evaluation of target architecture, and change impact on users
- SSO Rollout for all geographies with UAM Standardization

Business Benefits

- Simultaneous rollout of single sign on feature for ERP access to over 15000 users with improved user experience
- Optimized architecture led to reduced breakdowns and incidences resulting in lowering of maintenance costs.

LTIMindtree is a global technology consulting and digital solutions company that enables enterprises across industries to reimagine business models, accelerate innovation, and maximize growth by harnessing digital technologies. As a digital transformation partner to more than 700 clients, LTIMindtree brings extensive domain and technology expertise to help drive superior competitive differentiation, customer experiences, and business outcomes in a converging world.
