

S/4HANA Deployment and Non-SAP Migration to Azure for a Nordics-Based Consumer Retailer

Client

The client is the largest consumer electronics retail chain in the Nordics region. Headquartered in Norway, with 400 stores in six countries and over 10,000 employees, the client distributes consumer electrical goods and electrical household appliances.

Challenges

- Limitation of current architecture with respect to scaling, as it is hosted on a private cloud.
- Current platform lacking in performance and has a higher turnaround time for new business requirements.
- Low performance and user satisfaction of existing platform.
- Cost escalation due to business growth at an incremental level rather than exponential level.
- Alignment with organization's Azure-first cloud strategy for all digital initiatives.

LTIMindtree Solution

- Built a future-ready platform to boost business growth with improved user experience, uncompromising performance, and non-exponential cost escalation.
- Built a digital core to create innovation platform for business transformation.
- Moved to a scalable and highly available environment, with faster go-to-market time.
- Migrated non-SAP workload from Embrique cloud to Azure with zero downtime.
- 24x5 application management and 24x7 infrastructure support (CloudOps).

Business Benefits

- Increased performance of SAP HANA platform on Azure.
- Infrastructure streamlining and consolidation with a single window of operations.
- Data recovery at almost zero cost with only pay for storage replication.
- Efficient provisioning of resources for setting up parallel environment in minimal time.
- Ease of operations by moving to Azure and reaping benefits of cloud economics.
- Up to 50% refresh cycle time reduction.
- Increment in backup success rate due to usage of snapshots and automated scheduling assistant.
- 40% reduction in TCO.

Technologies Used
