

## Case Study

# Creating Automated Journal Entry Postings and Templates for Leading Global Bank

## Client

The client is a well-established global bank with 200,000+ employees, providing best-in-class service financial services solutions.

## Business Challenge

The client had to manage repetitive, mundane, and manual tasks like:

- ✓ **Performing checkout after release to ensure that the functionality is working as expected**
- ✓ **Financial template creation (Maker and Checker) and data upload for 93 countries**
- ✓ **Validation to ensure successful data upload for 93 countries**

## LTIMindtree Solution

LTIMindtree's Intelligent RPA professionals designed a robotized process by leveraging leading RPA technologies and implemented a feasible automation solution.

The validation activities for each of the processes were nested as business rules in RPA bots. The bots performed validation of each business rule across multiple datapoints and ensured end-to-end process automation. The Maker and Checker (multiple) Bots can work continuously for 16 hours a day without any manual intervention on all business working days. The automated process looks like this:

## Benefits Delivered

- 1. Six FTEs worth cost savings delivered**
- 2. End-to-end process automation**
- 3. Increased operational excellence**
- 4. 100% SLA adherence**
- 5. Improved audit compliance**

**LTIMindtree** is a global technology consulting and digital solutions company that enables enterprises across industries to reimagine business models, accelerate innovation, and maximize growth by harnessing digital technologies.
