Migration to SAP HANA on
AWS Cloud with 24*7 Support for an
India-Based Global technology Consulting
and Digital Solutions Company

Client

The client is a global technology consulting and digital solutions company, helping more than 300 clients succeed in the converging world. They assist their clients to accelerate their digital transformation with their platform, enabling client's mobile, social, analytics, IoT, and cloud journeys.

Challenges

- Legacy infrastructure increased operational cost with non-standard infra-elements.
- Additional investment for DR site, though required in case of disaster only.

LTIMindtree Solution

- Greenfield implementation of S/4 HANA 1610, Solman7.2, HCI on SAP Cloud, and Fiori 3.0.
- Build future-ready platform that can handle future business growth with improved user experience, uncompromising performance, and non-exponential cost escalation.
- Migrated 2.2 TB of production data with HANA database and S/4 Application in AWS.
- Build digital core to create innovation platform for business transformation.
- Optimized current SAP landscape management and application support from in-built inefficiencies.

Business Benefits

- Enhance user experience and reduced operational time.
- 40% Reduction in TCO.
- DR at almost zero-cost with only pay for storage replication.
- Up to 50% refresh cycle time reduction.
- Increment in backup success rate due to usage of snapshots and automated scheduling assistant.
