

Case Study

Software-defined Datacenter for **Nordics-based Payment Service Provider**

Client

With 50+ years of service, the client provides payment services to over 300,000 merchants throughout the Nordics region – from large corporations to smaller enterprises and micro-merchants.

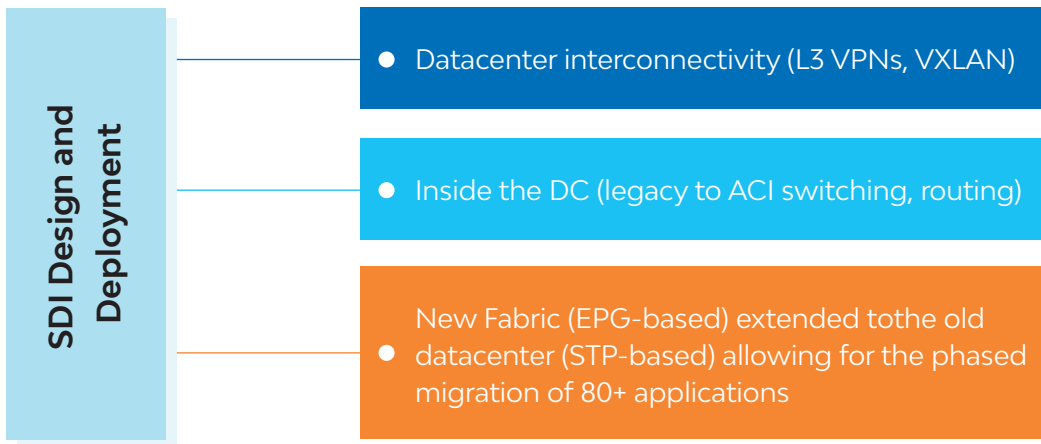

Challenges

- ✓ Need for modernization due to regulatory compliance demands
- ✓ Seamless migration of mission-critical Infrastructure
- ✓ High operational cost
- ✓ Migration of 65 applications as-is (1:1 VLAN to EPG mapping)
- ✓ Drive-up experience of the already digital-native target audience

SDI Design and Deployment

Business Benefits

- ✓ Accelerated migration of all enterprise applications.
- ✓ Seamless migration from Legacy DC to SDDC in a phased manner without business impacts.
- ✓ Smooth migration to new DC allowing usage of existing VLAN/IP schema, leading to negligible downtime and ensuring continuation in business operations.

LTI (NSE: LTI) is a global technology consulting and digital solutions company helping more than 420 clients succeed in a converging world. With operations in 32 countries, we go the extra mile for our clients and accelerate their digital transformation with LTI's Mosaic platform enabling their mobile, social, analytics, IoT and cloud journeys.
