Case Study

LTIMindtree Win with REV Group

APPROACH

👥 Customer Situation

The Customer: The REV Group is an American manufacturer of specialty vehicles the in Fire & Emergency, Recreational Vehicles, and Bus & Industrial sectors. The company has an annual revenue of over $1 billion.

Customer Pain: REV Group's existing architecture couldn't meet the infrastructure demand and the current infrastructure was limited on hardware and could not cater the performance requirement of the application. Investing on a highly available infrastructure without assured returns was a challenge. The existing on-premise DR solution had high network latency & low response time.

💡 Solution

By using Azure, REV IT gets the enterprise capabilities it needs to receive an on demand scalable infrastructure and ensure business continuity, while it only pays for the services it consumes. Without Azure, it might have cost them 10 times more to build an environment that could cope with the future business requirement.

The company uses tools such Azure site recovery, Azure Backup, and Azure Automation to streamline critical IT management functions.

IMPACT

Key Drivers

- REV IT saved time, effort & money on deploying a high performance, scalable, Agile & fault tolerant SAP platform in Azure.
- Implementing DR in azure helped them to reduce the overall cost of the infra expenditure.
- Moving to azure enabled them to scale much faster and more cost-effectively than it could in On-premise datacenters.

👍 Win Insights

This is a great example of LTIMindtree team providing migration & operational support to REV IT on their cloud journey.

Value Provided, Outcomes

- With Azure, we have changed the Infrastructure model and dramatically reduced the build time. Ease of operation was achieved by moving to Azure and reaping the benefits of cloud economics.
- They have a scalable & cost-effective environment with on demand DR solution.

Lessons Learned

The project helped to bring in more SAP to Azure migrations.

LTIMindtree is a global technology consulting and digital solutions company that enables enterprises across industries to reimagine business models, accelerate innovation, and maximize growth by harnessing digital technologies. As a digital transformation partner to more than 700 clients, LTIMindtree brings extensive domain and technology expertise to help drive superior competitive differentiation, customer experiences, and business outcomes in a converging world. Powered by 81,000+ talented and entrepreneurial professionals across more than 30 countries, LTIMindtree — a Larsen & Toubro Group company — combines the industry-acclaimed strengths of erstwhile Larsen and Toubro Infotech and Mindtree in solving the most complex business challenges and delivering transformation at scale.
