

Case Study

Delivering Security Operations Center (SOC) Services and Support for a Top Engineered Pumps and Compressors Manufacturer

Our client is in the business of manufacturing, designing, and installing industrial pumps and compressors for global oil and gas production and other sectors. The company has manufacturing facilities spread across the globe with more than 900 employees.

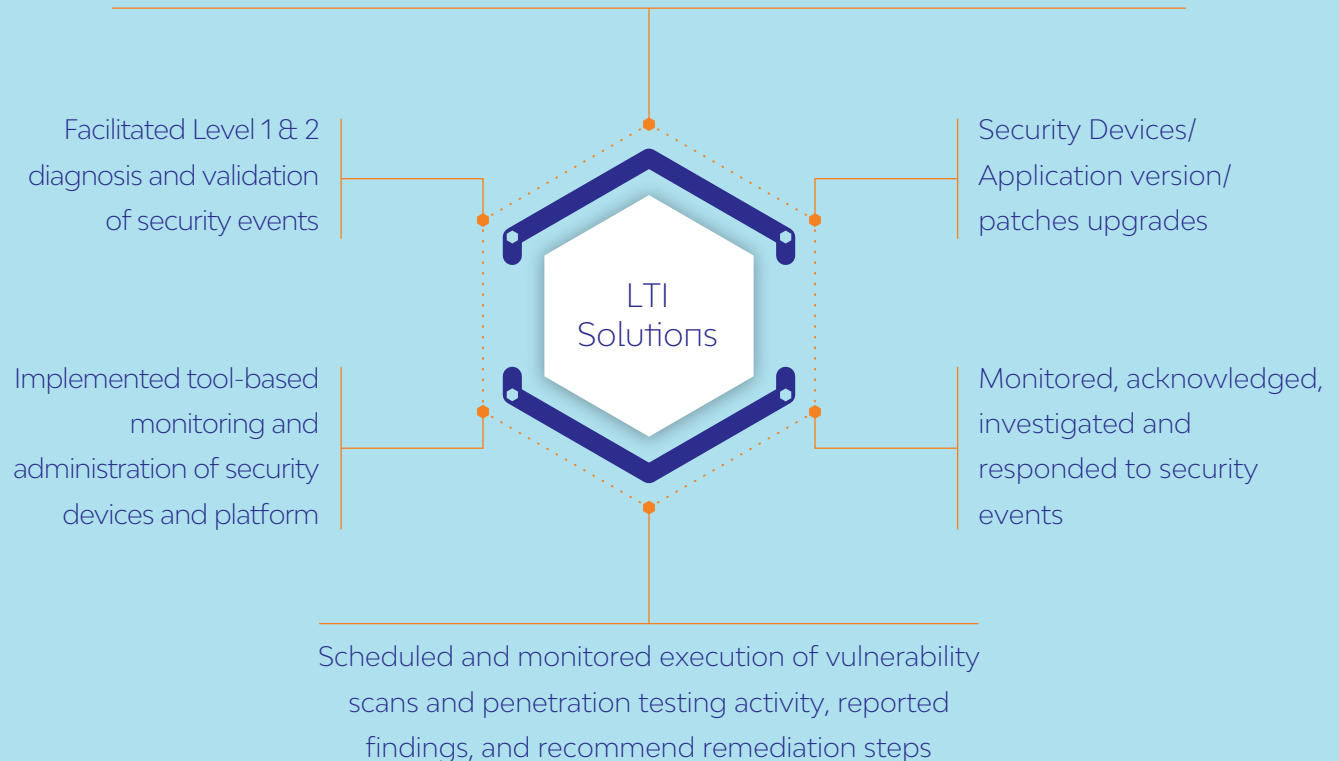

Business Challenges

- ✓ Deploy a centralized managed system to monitor and track events and alerts from critical systems and network traffic
- ✓ Lack of information about the infrastructure due to limited visibility and blind spots
- ✓ Managing a complex and legacy infrastructure

LTI Solutions

Enabled 24x7 Security Operations Centre (SOC) support, including security monitoring, incident response, threat intelligence and threat hunting, content development for Security Information and Event Management (SIEM) and Security Orchestration and Response (SOAR), for uninterrupted monitoring of security events

Business Benefits

Minimized breach impact and enhanced security, control, user experience, and productivity

Reduced mean time to response (MTTR) and enabled faster detection and remediation of threats

Increase security visibility and reporting through 24x7 monitoring

Enabled the client to stay one step ahead of attackers with contextual threat intelligence input

LTI (NSE: LTI) is a global technology consulting and digital solutions Company helping more than 400 clients succeed in a converging world. With operations in 31 countries, we go the extra mile for our clients and accelerate their digital transformation with LTI's Mosaic platform enabling their mobile, social, analytics, IoT and cloud journeys.
