

A photograph of three business professionals in a meeting. A woman with blonde hair is in the center, looking towards the left. A man with blue eyes is on the right, looking towards the center. A woman with dark hair is on the left, seen from the back. They are all wearing professional attire. The background is bright and out of focus.

Case Study

Data Governance Operationalization
for Leading Insurance Services Firm

Client

The client is leading insurance & core professional services firm. The company also provides offerings like financial services, legal, information technology, and investment advisory. Recently, the company has been recognized as the “Best Place to Work” in the insurance sector.

Challenges

Under-utilization of Collibra (Data Governance) platform

Lack of data governance operationalization strategy

Absence of automation for metadata ingestion

Unavailability of Collibra expertise

LTIMindtree Solution

- ▶ Designed and configured operating model in Collibra for Cognos Reporting.
- ▶ Configured organization structure, users, roles, and dashboards.
- ▶ Developed automation jobs for capturing metadata from SQL Server, IMM & Cognos.
- ▶ Established business and technical lineage for end-to-end data traceability.
- ▶ Configured workflows for report and asset certification.
- ▶ Formulated roadmap covering automation and operationalization.
