Overview

The post-pandemic world would necessitate faster time-to-market, simplified innovation, easier scalability, and reduced risk. Organizations can accomplish these objectives by leveraging cloud-based platforms effectively to scale without restrictions - and be the Unlimited Enterprise. LTI's Life Sciences Cloud offerings quickly help digital enterprises innovate, experiment and scale to market demands. Our well-designed, outcome-based engagements empower enterprises to take that big leap towards Digital. We can help you optimize your business efficiency with application portfolio rationalization, cloud adoption strategy, migration & modernization, cloud-native engineering, cloud usage optimization, cost optimization, and building your ERP on the cloud.

Solutions

R&D Portfolio Management

LTI Leni helps Pharma companies accelerate access to new drugs by optimizing Clinical development plans

Direct to Patient (DtP)

A cloud solution for accelerating clinical kit supplies delivery directly from Pharmacy to the Patients, eliminating clinical kit wastage

Decentralized Clinical Trials

Cloud-powered digital DCT solution for post-pandemic decentralization of clinical trials to eliminate/ minimize patient's visits

Digital Command Center

LTI Digital Command Center (DCC) helps manufacturing plant owners gain real-time insights into plant performance as well monitoring of assets

Healthcare Informatics & Automation

Develop innovative and personalized solutions to deliver enhanced patient outcomes using the Mosaic platform to accurately automate complex processes

Serialization, Track & Trace

LTI's Serialization, Track & Trace solution enables life sciences enterprises to accurately record, monitor, and manage drug information.

Success Stories

Accelerating Clinical Trial Supply

Implemented cloud-powered DTP clinical supply solution for dispatching Clinical kit supplies directly from Pharmacy to patients, reduced clinical supply wastage, and accelerated shipment.

Simplifying R&D Clinical Operations

Implemented LTI IP "LENI," AI-powered tool to simplify Pharma R&D planning - monitoring critical KPIs, and harmonizing & validating decisions.

Manufacturing Data Hub (MDH)

Implemented cloud Manufacturing Data Hub (MDH) for data harmonization and monitoring at Manufacturing Sites (Pharma, Med Device, Consumers) across regions.

Improving Patient Health

Implemented an Advanced Cloud Analytics solution to manage growing patient data and having advanced data modeling capabilities for a smarter, data-driven decision.

LTI (NSE: LTI) is a global technology consulting and digital solutions Company helping more than 460 clients succeed in a converging world. With operations in 33 countries, we go the extra mile for our clients and accelerate their digital transformation with LTI's Mosaic platform enabling their mobile, social, analytics, IoT and cloud journeys. Founded in 1997 as a subsidiary of Larsen & Toubro Limited, our unique heritage gives us unrivalled real-world expertise to solve the most complex challenges of enterprises across all industries. Each day, our team of more than 40,000 LTIites enable our clients to improve the effectiveness of their business and technology operations and deliver value to their customers, employees and shareholders.
