

Case Study

**Global Home Solutions
Provider Partners with
LTIMindtree to Digitize
its Warehouse Management**

Client

One of the leading manufacturer and suppliers of bathroom fittings and solutions providers.

Challenges

Due to scalability issues, the current bespoke developed WMS system and their in-house ERP application cannot cater to their fast-growing business needs.

The existing paper-based manual process has a high turnaround time.

There is a lack of process governance across various warehouses due to customization at each warehouse.

LTIMindtree Solution

- Extended and integrated order management and inventory of Oracle Supply Chain Management (SCM) for Custom WMS system

- Built a high-performance web portal using Oracle Cloud PaaS platform to address customer's WMS requirement

- Integrated with HHT and barcode scanner with WMS to digitize and standardize the process

- Developed and integrated a mobile application with WMS to eliminate paper-based process

- Developed various reports to view various analyses across warehouses in real-time

Business Benefits

Standardized common policies and processes across warehouses.

Easy to scale systems for new warehouses.

Eliminating paper-based processes resulting in higher operational efficiency.

LTIMindtree is a global technology consulting and digital solutions company that enables enterprises across industries to reimagine business models, accelerate innovation, and maximize growth by harnessing digital technologies. As a digital transformation partner to more than 700 clients, LTIMindtree brings extensive domain and technology expertise to help drive superior competitive differentiation, customer experiences, and business outcomes in a converging world.
