

Case Study

**Improvised
Warehouse Efficiency
by Embracing Oracle
Analytics Cloud
for a Global
Home Equipment
Manufacturer**

Client

One of the rapidly growing, multi-diversified, complete bathroom and lighting solutions provider catering to various segments with a wide range of products and presence in more than 60 countries.

Challenges

Scalability issues in the legacy application and a lack of decision system.

Lack of standard process and governance across various warehouses, with rampant use of warehouse-specific process.

Paper-based, manual processes resulting in higher turnaround time.

No insights into the inventory, stocks, or pipeline, leading to inefficient planning.

LTIMindtree Solution

- Standardized process and provided singular data visibility into critical metrics.

- Enabled visibility into both actionable insights as well as deeper transaction data to facilitate effective decision making.

- Delivered real-time visibility to Bins status, Put, Pick, and Short Quantities.

Business Benefits

Standardizing policies and processes across warehouses.

Deploying a scalable BI system catering to all future expansions.

30% improvement in operational efficiency by eliminating paper-based process.

LTIMindtree is a global technology consulting and digital solutions company that enables enterprises across industries to reimagine business models, accelerate innovation, and maximize growth by harnessing digital technologies. As a digital transformation partner to more than 700+ clients, LTIMindtree brings extensive domain and technology expertise to help drive superior competitive differentiation, customer experiences, and business outcomes in a converging world.
