

CASE STUDY

A leading North European Financial Services Company drives Cybersecurity Transition & Transformation

Client

The client is a provider of asset and loan management services in the pan European region, and they aim to build a sustainable financial system across Europe.

Challenges

Endpoint protection and technical vulnerability assessments for entire IT landscape.

Manage a 24x7 Security Operations Center (SOC) and incident response through a trusted managed cybersecurity services partner.

Deploy Security Information and Event Management (SIEM) for advanced threat detection and implementing network and security intrusion prevention systems across centers.

Enable data privacy, encryption, and Bring Your Own Key (BYOK), adhering to European Banking Authority (EBA) and Payment Card Industry Data Security Standard (PCI DSS) standards.

LTIMindtree Solution

- Delivered managed security services from onsite, nearshore SOC and Offshore Development Center (ODC).
- Designed, built, and operated the next-generation SOC.
- Provided integrated SOC services, including threat detection, threat hunting and incident response, threat intelligence, and vulnerability assessment.
- Facilitated key management with Hardware Security Module (HSM) for encryption of data in the cloud, BYOK, and internal/external certificate authority.

Business Benefits

20%

Reduction
in ticket inflow.

Minimized false positive
incidents to 25%.

Implemented a **Virtual Machine (VM)**
for infrastructure and remediation, as
per specific compliance and regulatory
requirements.

Achieved 25% automation across
key cybersecurity
processes.

About LTIMindtree
