

**CASE STUDY**

---

**Digitizing Warehouse  
Management & implementation  
of Oracle Fusion Cloud  
Landscape** for Jaquar,  
LTIMindtree's Global  
Home Solution Partner

## Client

Jaquar Group is a rapidly growing, diversified brand specializing in “complete bathroom and lighting solutions.” With a strong foundation in top-notch quality and aesthetics, their aim is to deliver world-class products. They have a global presence in more than 55 countries spanning Europe, the Middle East, Asia-Pacific, and Africa.

## Business Goals

Implementation of the newly introduced Oracle ERP Cloud (AP, AR, GL, FA, CM) and SCM (covering procurement, inventory, and order management) encountered difficulties in terms of user acceptance and adoption.

Major gaps between client-desired & product-delivered functionalities.

The existing bespoke developed WMS and the in-house ERP application had scalability issues and could not cater to the client's fast-growing business needs.

# LTIMindtree Solution

- Assess existing implemented SaaS configurations and Leverage our Oracle Cloud Assessment tool for fitment analysis.
- Development of various PaaS Extensions aimed at satisfying essential customizations needed, resembling those found in SaaS functionalities such as Job Work, Vehicle Master, MSL, importPO and more.
- Extended and integrated Procurement, Inventory and Order management of Oracle Supply Chain Management (SCM) for Custom WMS system.
- Built a high-performance web portal using Oracle PaaS technologies (VBCS, OIC, IDCS and ATP Database) to address customized WMS requirements which is hosted on OCI using Oracle DevOps (Visual Builder Studio).
- Integrated with HHT and barcode scanner to digitize and standardize the process.
- Developed and integrated a mobile application with WMS to eliminate paper-based processes.
- Developed various reports showing real-time data analysis across all warehouses using Oracle Analytics Cloud (OAC).

## Business Benefits

Decrease of 10% in operational capital.

Enhancement of lead time by 40%.

Increased adoption of industry best practices through a 27% reduction in customizations

Standardized common policies and processes across warehouses.

Systems that can be effortlessly expanded to accommodate new warehouses.
