

JD Edwards for Tomorrow

Nynas AB Using JD Edwards with Oracle Cloud Infrastructure to transform Customer Experience

Overview:

Nynas AB's JD Edwards user organisation was facing challenges to scale its end-customer experience.

Discover how Oracle Cloud Infrastructure was leveraged to achieve the transformation

Hear from Nynas AB's Ann-Kristin Weihe, about the transformation journey that helped in:

- Improved time-to-market by 300%
- Amplify customer's visibility to better plan, procure and execute
- Create multiple interactive channels for customers
- Reduce IT integration cost by 40%
- Accelerate inter-departmental collaboration

Join the webinar to uncover role of Oracle Cloud Infrastructure in setting up reliable solution for business continuity

What will this webinar cover?

- Use of Oracle Cloud to handle a Customer Portal for Nynas AB
- Digital integrations with JD Edwards and surrounding systems
- Risk Mitigation, Compliance & Operational flexibility with OCI
- Q&A with experts

Providing outstanding JD Edwards Transformational Programs since 2001

SPEAKERS

Nynas AB
Ann-Kristin Weihe

Why Nynas Chose This Approach ?	Business Benefits (Speaker - Ann-Kristin Weihe, Nynas AB)
Oracle View	Oracle JD Edwards and the Cloud (Speaker - Mark Herwege, Oracle)
Way Ahead	Closing Notes (Speaker – Rana Beteille, LTI)
Q&A	

Enterprise of Tomorrow

JD Edwards for Tomorrow

LTI INFINITY Platform for Journey to Cloud

Introduction to Nynas AB

Nynas is a different kind of oil company – we want to use oil, not burn it.

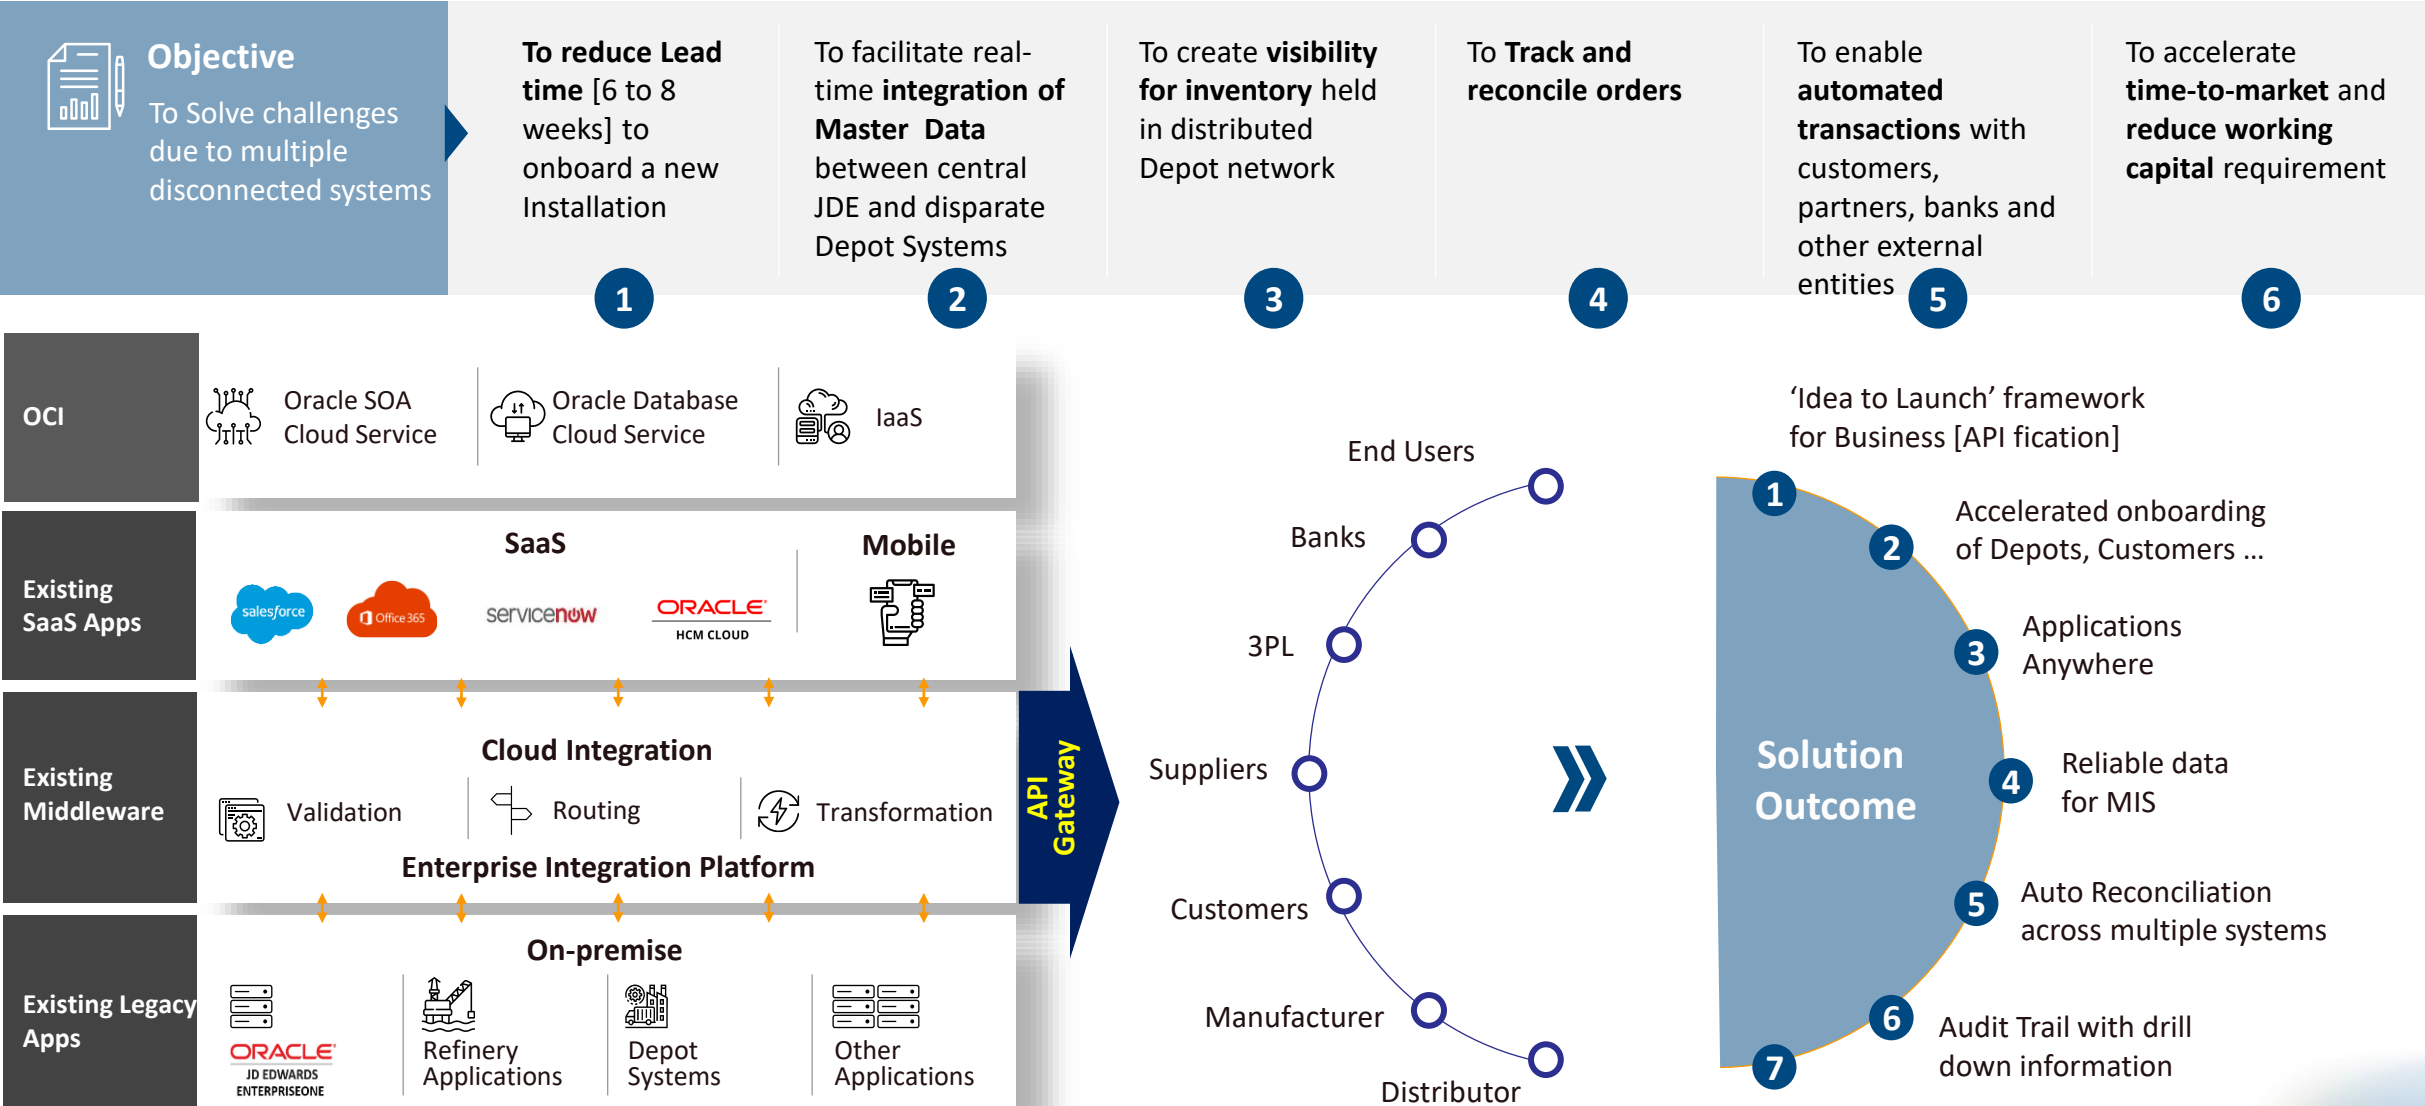

With around 1000 employees, production facilities in Europe and offices in over 30 countries, Nynas is dedicated to researching, producing and supplying specialty naphthenic oils and bitumen for a growing global market. Together with our customers, we have the know-how to find new applications and meet new challenges that can help shape society.

We take oil further to bring value to customers and the world we live in.

You will find the Nynas Specialty Oils in every other product

Nynas AB: Using OCI to Facilitate Digital Integrations

Nynas AB: Using OCI for Enhancing Customer Experience

Objective

To arrive at consolidated and **dependable demand forecast**, based on fragmented inputs from emails, tele-calls, messages etc.

1

To avoid **multiple, error-prone, manual steps** to capture order in **JDE**

2

To **eliminate Task Duplication** for capturing orders in **Non-JDE** Depot systems,

3

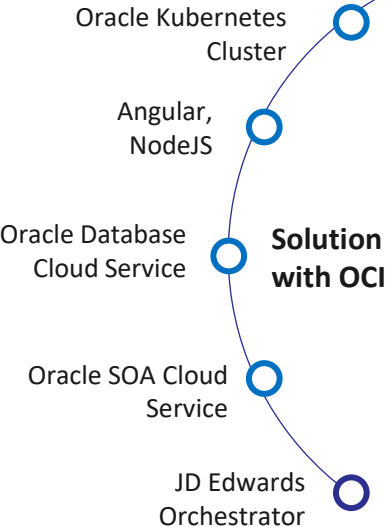

To **reduce Order to Cash Cycle time** and **optimize Supply Chain lead time**

4

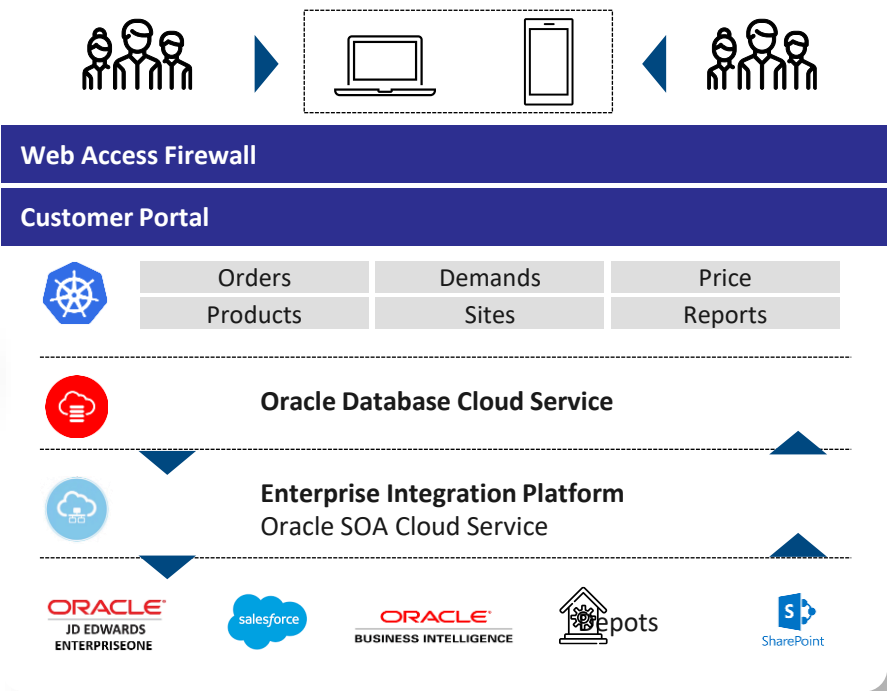

To **render greater and seamless visibility to Customer** on products, prices and availability

5

Build & Deployed Customer Portal

Solution with OCI

Solution Outcome

Nynas AB: Using OCI for Business Continuity

Objective

To identify and implement a business continuity plan for JD Edwards

Business Continuity during disaster

Scalable & Flexible

Minimum Maintenance

Adaptable as Global Standard

Future-Ready Landscape

Cost Effective Solution

Recover On Cloud

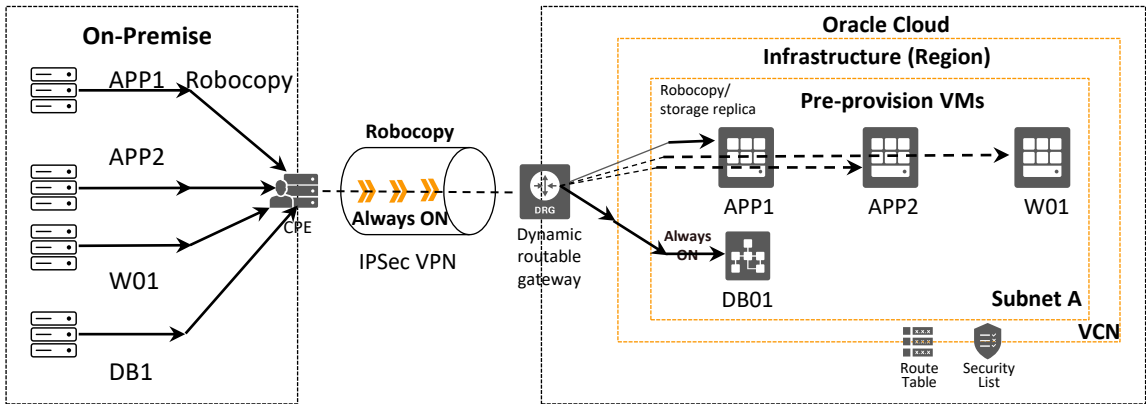

How OCI meets the Objectives

- DR on Frankfurt region enabling Geo-redundancy for Nynas
- Scalable - Compute, Storage & Network resources for future expansion
- Requires only Monitoring and minimal maintenance of DR setup as compared to Nynas data center
- Wide range of PaaS and SaaS offerings to adopt and augment future requirements
- Cost savings of >24%

How the solution was implemented

Connected to on-premise with IPsec VPN

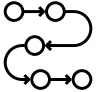

Storage data replicated to OCI with Robocopy

Database sync with Always ON

Why Nynas AB Chose This Approach

	Digital Integrations on OCI	Customer Portal on OCI	Disaster Recovery on OCI
	 <p>Complex and diversified requirements</p>	 <p>Specific functionalities addressing key problems</p>	 <p>Single Vendor support for JD Edwards</p>
	 <p>Security and control on integration platform</p>	 <p>Cost-effective solution with high performance</p>	 <p>Co located with integration platform</p>
	 <p>Capitalize on existing investments</p>	 <p>Reuse existing APIs for multi-system workload</p>	 <p>Spend Flexibility with Universal Credits</p>
 <p>Benefits</p>	<ul style="list-style-type: none"> Improved Time-To-Market by 300% Reduced IT integration cost by 40% Consolidated and Accurate MIS Transactions across system Scalable solution for new plug-ins 	<ul style="list-style-type: none"> Empowered Customer Experience Accelerated Order to Cash Cycle Dependable demand forecasts Effective production planning Reduced Working Capital Requirement 	<ul style="list-style-type: none"> Scalable platform for expansion Future ready landscape Cost savings >24% Enabled Business Continuity Achieved IT compliance
