

Our client is a US-based manufacturer of industrial pump and compressor products supporting and supplying to the process fluid and gas industries.

Challenges

The existing system was outdated and had limited accessibility for usage.

The system synced only with JD Edwards and not with any of the latest solutions.

Additionally, the client wanted to enable a unified view on the customer front and enhance its global visibility.

LTIMindtree Solution

Replaced an outdated e-commerce platform ERP2Web which only worked with
JD Edwards with a modern e-commerce platform and deployed it as the enterprise-wide e-commerce solution.

 Integrated Oracle Commerce Cloud with three ERP's (Oracle JDE, MS Navision and Infor Syteline) and CRM applications for global visibility and single unified customer view using Oracle Integration Cloud Service.

- Delivered capabilities for channel partners to streamline:
 - a) Stock quotes for parts
 - b) Customer quotes for parts
 - c) Quotes through OCC and CPQ for units

Business Benefits Delivered

Enhanced customer satisfaction and informed decision making.

Improved business productivity and accelerated 'quote to order' conversion.
