

CASE STUDY

Secure Access Services Edge (SASE) Deployment for Global IT Services and Consulting Major

Client

The client is a leading global technology consulting and digital solutions company. The client used legacy and disparate controls for enterprise-wide internet access and a cloud-based firewall. No uniform platform and process was available to improve enterprise security posture and risk management. Also, they faced challenges with a high license renewal cost for existing proxy and sandboxing solutions. They were wanted to bring 48,500+ users and 70+ sites into the managed state to improve overall security posture.

Challenges

High cost of license renewal for proxy and sandboxing solutions

Legacy and disparate controls for enterprise-wide Internet access and cloud-based firewall

Absence of uniform platform and processes for enterprise security posture and risk management

LTIMindtree Solution

LTIMindtree helped the client build a cloud-first roadmap by implementing enterprise-wide internet access & cloud-based firewall to improve their overall security posture.

- Design and implementation of ZScaler SASE-based SWG - ZIA & Cloud-based firewall

- Built a cloud-first roadmap for enterprise-wide security

- Devised Data-Security policy and controls for data-in-transit

- Integration of in-house SOC and ITSM tools to improve, manage, detect, and respond to threats

- Aided with security tool management - firewall, cloud security, proxy, Data Loss Prevention (DLP), and Advanced Threat Prevention (ATP)

Business Benefits

30% cost reduction (YoY) in licensing with additional security features like Advanced Threat Protection and Next-Generation Firewall (NGFW)

Reduction in ticket volume and turnaround time through automation of access requests and integration with ITSM

Reduction in capital expenditure by replacing appliance-based proxy solution

Reduced IT overheads using operation excellence

LTIMindtree is a global technology consulting and digital solutions company that enables enterprises across industries to reimagine business models, accelerate innovation, and maximize growth by harnessing digital technologies. As a digital transformation partner to more than 700 clients, LTIMindtree brings extensive domain and technology expertise to help drive superior competitive differentiation, customer experiences, and business outcomes in a converging world. Powered by 82,000+ talented and entrepreneurial professionals across more than 30 countries, LTIMindtree — a Larsen & Toubro Group company — combines the industry-acclaimed strengths of erstwhile Larsen and Toubro Infotech and Mindtree in solving the most complex business challenges and delivering transformation at scale.
