

Brochure

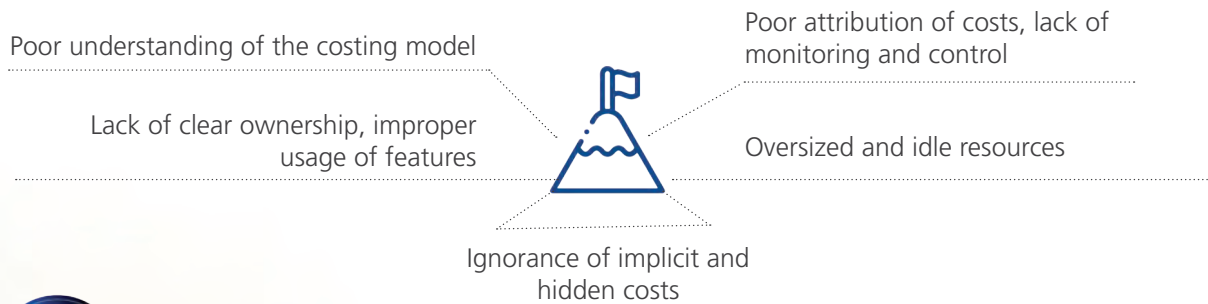

# Sunshine FinOps

Enables visibility and provides insights on utilization and cost parameters of Azure data services to establish a cloud discipline.

# Challenges

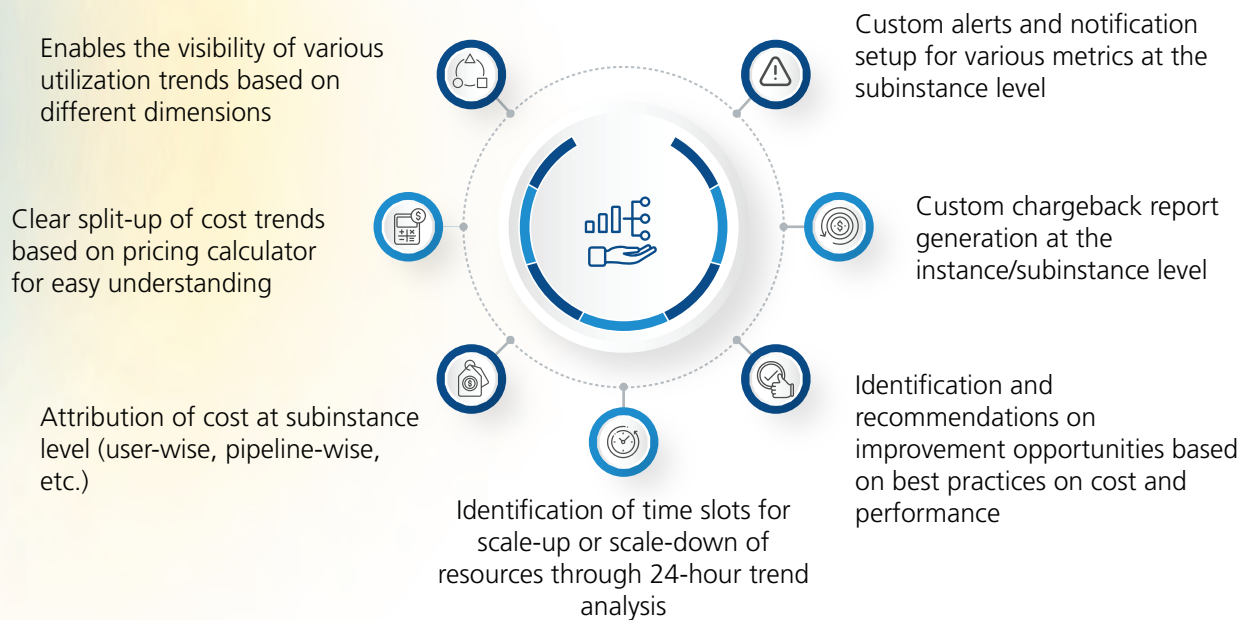

While cloud modernization provides various advantages, it could also be challenging and uncontrolled if not adequately monitored and governed. Substantial cost overruns and reduced business benefits can be the result of the following:

# Solution

Sunshine FinOps offers a comprehensive solution for utilization monitoring and cost optimization for various Azure data services.

## A. Features

## B. Benefits

Up to **40%** increased visibility on utilization and costs across Azure data services

Experience a **10-20%** cost reduction through targeted recommendations and alerts

Experience a **10-20%** increase in performance through optimization recommendations

**30%** increase in subinstance level chargeback accuracy

## Supported Data Services

## LTIMindtree advantage

- With a long-term relationship with Microsoft, LTIMindtree is uniquely positioned as an Azure Expert Managed Services Provider (MSP) and a Microsoft Solution Partner with expertise across all six Microsoft solution areas.
- We have a long-standing comprehensive relationship with Microsoft as a strategic partner, vendor, and customer.
- We strive to optimize clients' businesses and enhance cloud transformation benefits by understanding Azure cloud monitoring, service costs, and cloud best practices and implementing those to provide detailed information and optimization recommendations in Azure.
