Introducing POWER COP

(A comprehensive governance tool for Power Platform powered by LTIMindtree's Low Code services)

At LTIMindtree, we have developed a holistic all-in-one tool that lays the foundation to embark on an App build-out journey at an enterprise level using the Power Platform ecosystem. The tool ensures that the enterprise stays on course in the app build lifecycle by providing integrated guard rails through a systemic approach. This tool focusses on Governance, Review and Dashboarding.
