

Case Study

Maximizing ROIs through Business-Driven Cloud Assessments

Client

The client is a UK-based agency providing flexible and innovative insurance solutions with expertise in underwriting, broking, and capacity management. Founded in 1983, the client has a proven industry background in developing and growing unique, market-leading solutions aligned to their customer needs.

Challenges

- Conduct cloud readiness assessment of over 200 ASP.NET-based apps
- Seek recommendations for future-state architecture

LTIMindtree Solution

- LTIMindtree Infinity's assessment kit performed a deep analysis of .Net based application portfolio for cloud readiness.
- The cognitive models provided cloud disposition, move group, and cloud-native recommendations.
- Additionally, we furnished PaaS recommendations for databases, secret management, centralized logging, and modernization recommendations for mono-to-micro services.

Business Benefits

70%
